

## **CHAPTER 1 INTRODUCTION**

---

### **UNIVERSITY OF DEBRECEN**

The aim of the University of Debrecen is to become a university of medical sciences committed to the prevention and restoration of health of the people, not only in its region but in the entire country.

In the past two decades both medical science and health care have entered a new era: one can witness such a progress in medical sciences that has never been seen before. Modern attitudes in health care should be enforced in practice taking the human personality into consideration. These approaches demand the application of the most modern techniques in all fields of the medical education.

All curricula wish to meet the challenges of modern times, they prepare students for co-operation and teamwork and they embody some very basic values. They are comprehensive; they take into consideration the whole human personality (body and soul) in its natural and social surroundings; and they are based upon the best European humanistic traditions.

With respect to education, both students and teachers are inspired to acquire higher levels of professionalism, precision, and problem solving skills in order to be able to understand and handle the changing demands of health care.

The University of Debrecen is already internationally recognized in the fields of both basic and clinical research. Special attention is given to facilitate and support the close co-operation of researchers representing basic science and clinical research, and/or interdisciplinary studies.

With respect to therapeutic practice, the main objective is to provide high quality, effective, up to date and much devoted health care to all members of the society, showing an example for other medical institutions in Hungary. One of the primary tasks is to continuously improve the actual standards of the diagnostic and therapeutic procedures and techniques, and to establish regional or even nationwide protocols.

With respect to serving the community, all faculty members wish to play a central role in shaping the policies of the health service; both within the region and in Hungary. They also want to ensure that sufficient number of medical doctors, dentists and other health care experts with university education is provided for the society. Humanity, empathy, social sensitivity, team-spirit, creativity, professionalism, independence, critical and innovative thinking, co-operation and management help to meet the challenges of medical education, research and therapy of the 21st century. The organizational structure, including the multi-faculty construction of the institution, is a constantly improving, colourful educational environment.

### **HIGHER EDUCATION IN DEBRECEN**

#### **A Brief History**

1235: First reference to the town of Debrecen in ancient charters.

1538: Establishment of the “College of Reformed Church” in Debrecen.

1567: Higher education begins in the College.  
1693: Declaration of Debrecen as a “free royal town”.  
1849: Debrecen serves as the capital of Hungary for 4 months.  
1912: Establishment of the State University of Debrecen comprising the Faculties of Arts, Law, Medicine and Theology.  
1918: Inauguration of the Main Building of the Medical Faculty by King Charles IV of Hungary.  
1921: The Medical Faculty becomes operational.  
1932: Completion of buildings of the campus.  
1944: Although during the Second World War, Debrecen became the capital of Hungary again (for 100 days), the University itself is abandoned for a while.  
1949: The only year when the University has five faculties.  
1950: The Faculty of Law idles; the Faculty of Science is established.  
1951: The University is split up into three independent organizations: Academy of Theology, Medical School, Lajos Kossuth University of Arts and Sciences.  
1991: The “Debrecen Universitas Association” is established.  
1998: The “Federation of Debrecen Universities” is founded.  
2000. The federation is transformed into the unified “University of Debrecen” with all the relevant faculties and with some 20,000 students.

Debrecen is the traditional economic and cultural center of Eastern Hungary. In the 16<sup>th</sup> century Debrecen became the center of the Reformed Church in Hungary and later it was referred to as the "Calvinist Rome". In the 17<sup>th</sup> century Debrecen became the mediator between the three parts of Hungary: the part under Turkish occupation, the Kingdom of Hungary and the Principality of Transylvania. For short periods of time, Debrecen served twice as the capital of Hungary. Nowadays, with its population of approximately a quarter of a million, it is the second largest city in Hungary.

Debrecen is a unique city: one of the main attractions and places of natural uniqueness in Hungary is Hortobágy National Park, known as “puszta” with unique flora and fauna and ancient animal husbandry traditions. A very lovely part of Debrecen is the “Nagyerdő” (“The Great Forest”), which is a popular holiday resort and besides, it accommodates the University campus too.

The history of higher education in Debrecen goes back to the 16<sup>th</sup> century when the College of the Reformed Church was established. The University of Debrecen was established in 1912, initially having four faculties (Faculties of Arts, Law, Medicine and Theology). The educational activity at the University started in 1924. In 1951 the Faculty of Medicine became a self-contained, independent Medical University for training medical doctors.

The special training of dentists began in 1976. As a further development the University Medical School established the Health College of Nyíregyháza in 1991. In 1993, as part of a nationwide program, the University was given the rights to issue scientific qualifications and new Ph.D. programs were also launched. The Faculty of Public Health was established in 1999, while the Faculty of Dentistry was founded in 2000.

The health science education system is built vertically from the lowest (post-secondary or certificate) to the highest (Ph.D.-training) levels.

The introduction of the credit system, starting in September 2003, has been mandatory in every Hungarian university, helping the quantitative and qualitative evaluation of the students’ achievements.

The syllabi and classes of all courses correspond to European standards.

## **CHAPTER 2**

### **MISSION AND HISTORY OF THE UNIVERSITY OF DEBRECEN FACULTY OF HEALTH**

---

#### **MISSION OF THE UNIVERSITY OF DEBRECEN FACULTY OF HEALTH**

The University of Debrecen Faculty of Health believes that active participation of the students in the learning process makes them understand concepts, policies better.

The mission of the University of Debrecen Faculty of Health is to improve the health of individuals and communities locally and globally with excellent education of health care workers, to improve the well-being of the vulnerable, to fight against social injustice through value-driven, creative social work education and research with programs that meet the needs of a changing society.

The aim of the University of Debrecen Faculty of Health is to offer high standard and practice-oriented trainings, as well as a high quality educational and research area for the present and future students.

#### **HISTORY OF THE UNIVERSITY OF DEBRECEN FACULTY OF HEALTH**

The institution was founded in Nyíregyháza on 1st September 1990. The training started with General Social Work and Health Visitor degree programs. In 1991 the degree program in Health Care Management, in 1993 the degree program in Nursing were launched. The degree program in Medical Diagnostic Laboratory Analyst started in 1997, a year later the degree program in Paramedics started, while the degree program in Physiotherapy started in 1999. On 1st January 2000 the integrated University of Debrecen was founded, the previously independent institutions were (re)joined with legal succession. Due to these changes our faculty joined the Centre for Medical and Health Sciences of the University of Debrecen, whose task was to provide health care services in the Eastern Tisza region and the North-East region, as well as to organize specialist and post-qualifying trainings for doctors, dentists, chemists, and other health professionals working in public health and health care.

The training programs of the faculty were accredited by the Hungarian Accreditation Board that acknowledged our training programs. Throughout the development of our Faculty one of the most important steps was that the Faculty realized the potentials provided by the integration. Not only did our institution join the Centre for Medical and Health Sciences within a short time, but it took the advantages of cooperating with other faculties of the university. Our faculty has fulfilled the regional requirements set in the foundation document and has established cooperation with more than 20 hospitals, health care institutions and more than 120 social institutions in several regions, thus participating and integrating in the health and social care systems.

In accordance with the European Union conception, the faculty offers a training program that includes degree programs at bachelor (B.Sc./B.A.) and master (M.Sc./M.A.) levels, as well as post-qualifying training programs.

At present students can choose from 6 Bachelor degree programs, 3 Master degree programs and 9 post-qualifying trainings (in Hungarian language) in health and social sciences. The scientific background of the trainings is provided by the 14 faculties of the University of Debrecen, which is one of the best-known institutions in Hungary.

## MISSION AND HISTORY OF THE UNIVERSITY OF DEBRECEN FACULTY OF HEALTH

After the first Master degree program of the Health College Faculty had been accredited and registered, our institution altered its name to Faculty of Health and has been using it since 1st September 2007. In September 2008 the faculty was the first to launch the Master Degree Program in Social Work in Health Care in the country. In 2009 the Hungarian Accreditation Board (MAB) accredited the Master's Degree Program in Nursing as well as in Social Work and Social Economy (SOWOSEC), the latter one issues a Joint Degree.

Concerning the number of students the Faculty has become one of the biggest faculties of the University of Debrecen since 1990 and has created an excellent educational and scientific background strengthened by significant international relationships with about 14 countries. About 1800 students study in the Bachelor and Master degree programs and in the specialized further trainings.

## CHAPTER 3

### SOCIAL WORK IN HEALTH CARE MSC

<i>Qualification:</i>	<i>Qualified Health Social Worker</i>
<i>Field of training:</i>	<i>medical and health sciences</i>
<i>Length of training:</i>	<i>4 semesters</i>
<i>Credits:</i>	<i>120</i>
<i>Type of training:</i>	<i>full time and part time</i>

### Objectives

The aim of the degree program is to train professionals who with the knowledge and methods gained about the fields of health and social sciences are able to tackle both health and social related problems by performing professional, social and intersectoral cooperation. Graduates will become part of preventive activities, as well as activities targeting acute problems, and after-care.

### Master Degree Curriculum

The Social Work in Health Care master degree curriculum was developed to provide students an in-depth knowledge of social work practice in health settings. The program has four primary areas that students can select from: care for the elderly, rehabilitation, working with the disabled, and hospital social work. In working with chronic patients, oncological and psychiatric care is emphasized. Students should carefully review the curriculum offered because it contains elective courses. Two types of electives are offered: required courses: (1) those where you must choose the course from a specified group of courses and elective courses: (2) those where you can choose whatever course you would like to take. Both types provide credit toward the degree.

Why are four areas of study and a variety of courses offered? Some students have already decided on the specific area of Social Work in Health Care where they want to work after graduation. These students can select one of the four primary areas and start to specialize immediately. For example, if they want to work in the care of the elderly they might select subjects from the curriculum like Gerontology and Clinical Geriatrics I and II, Social Work and the Elderly I and II and Psychiatric Patient Care I and II. Other students enter the program knowing that they want to be a social worker in health care but have not decided on a particular specialization. For these students the modular curriculum provides the opportunity to select courses from each of the four different areas, to learn about and acquire some knowledge that relates to those areas.

Students have the possibility to engage in practice outside the institution in an area of specialization where students learn that area's distinctive characteristics and features. Using this experience, in addition to the classroom courses, students can write their thesis about problems found in that particular field. Thus, students can meet the formal requirements of acquiring required credits in each subject area as well as to learn the characteristics of a given field and to gain special knowledge.

To ensure that the content and the standards of the program meet international requirements an International Council Board has been established with the participation of well-known and respected professors, who continuously engage in program oversight and frequently give lectures to the students. The members of the board are: Prof. Dr. Thomas R. Lawson (USA), Dr. Steve Drewry (USA), Prof. Dr. Valeria Tothova (Czech Republic), Prof. Hannu Pietiläinen (Finland).

## **Competences**

- in comprehensive professional knowledge by integrating the characteristics of social work and health care,
- to reveal and analyse the individual and societal connection between health and social related problems,
- to work out and implement developmental programs as well as independent supportive processes,
- to tackle complex health and social related problems,
- to work out and implement social diagnosis and therapy,
- to reveal individual and wider resources to make cooperation possible,
- to work out and apply social activities as part of rehabilitation,
- to perform team-work.

## **Program of the course**

*Basic subjects:* Health Policy, Basics of Health Sciences, Health and Social Law, Sociology of Health, Health Psychology and Mental Hygiene, Clients and Methods of Social Work

*Professional subjects:* Health Management Studies, Applied Research Methodology, Quality Assurance in Social and Health Systems, Health Social Work Field Practice, Social Surroundings and Epidemiology, Fields and Methods of Health Social Work, Rehabilitation, Health Science Studies in Health Social Work, Deviance and Behaviour Disorders

*Specialized subjects:* Disability and Society, Gerontology and Clinical Geriatrics, Equality and Social Integration, Social Work with Psychiatric Patients, Social Work with Patients with Long-term or Chronic Diseases, Social Work with Mentally Ill and Addicted Patients, Social Work with Elderly People, Community Care and Team Work, European Economic and Social Policy

## **Career possibilities**

Graduates with Health social work Master's degree will find jobs in institutions and services which provide comprehensive health and social care using inter-professional and widened competencies for the sake of clients and patients. These include elderly homes, hospice care, institutions for addicts, disabled people or psychiatric patients. They can also continue their studies in Doctoral School.

## CHAPTER 4 TRAINING REQUIREMENTS AND OUTCOME REQUIREMENTS

---

### Social Work in Health Care Master's Degree Program

- 1. Name of the Master's Degree Program:** Social Work in Health Care
- 2. Education level that can be obtained in the Master's Degree Program and the official name of the qualification that can be found in the diploma:**
  - education level: Master's Degree (magister, master; abbreviation: M.Sc.)
  - qualification: graduate Social Worker in Health Care
  - English name of the qualification: Social Worker in Health Care
- 3. Program area:** Medical and Health Sciences
- 4. Degrees approved for entry to the Master's Degree Program:**
  - 4.1.** Social Work and Social Pedagogy – earned credits are fully awarded
  - 4.2.** Nursing and Patient Care, Health and Prevention, Health Care Management, Social Studies, Sociology, Political Sciences, Psychology, Pedagogy – credits accepted according to point 11. ,
  - 4.3.** any bachelor or master degree and college or university degree listed in Act LXXX. of 1993 on Higher Education, which can be transferred by the credit transfer committee of the tertiary institution on the basis of the acquired knowledge – certain credits are awarded.
- 5. Duration of education:** 4 semesters
- 6. Number of credits required in order to obtain Master Degree:** 120 credits
  - 6.1. Number of credits that can be assigned to basic studies:** 15-20 credits
  - 6.2. Number of credits that can be assigned to the professional core material:** 50-60 credits
  - 6.3. Number of the credits that can be assigned to differentiated professional material together with the thesis work:** 35-50 credits.
  - 6.4. Minimal value of credits that can be assigned to elective optional subjects:** 5 credits
  - 6.5. Credit value assigned to thesis work:** 20 credits
  - 6.7. Percent of the practice studies:** according to the institutional curriculum at least 40%.
- 7. Educational aims of the Master' Degree Program, professional competencies to be acquired:**

The aim of the degree program is to train professionals who, with the wide knowledge obtained in the health and social sciences, are able to tackle both health and social related problems by performing professional, social and interprofessional cooperation. Graduates will engage in preventive activities, as well as activities targeting acute problems and after-care. Having gained a thorough theoretical knowledge and practice they will be able to continue their studies in a doctoral program:

a) ***Knowledge acquired in Master's Degree Program:***

- research and analysis about the complex connections between individual, social, epidemiological and legal conditions,
- service planning and evaluation,
- health science,
- applied behaviour science, mental hygiene and psychology,
- rehabilitation,
- social work,
- health management

b) ***Graduates from Master's Degree Program are able to:***

- use integrated professional knowledge and its practical application
- uncover the individual and social connections of health and social problems, to develop developmental programs,
- develop and implement independent supporting processes,
- manage complex health and social problems,
- to reveal, mobilize and develop individual and environmental resources in order to solve problems effectively between health and social services and the micro-environment,
- provide social support tasks for groups struggling with special health and mental problems,
- develop and implement social development programs as a part of rehabilitation for illnesses and groups requiring special rehabilitation,
- participate in team work.

c) ***Personal characteristics and skills necessary for practice qualification:***

- good communication,
- creativity, flexibility,
- problem recognition, analysis and solution,
- information-processing,
- intuition and methods,
- learning,
- sensitivity to environment,
- commitment and need to take part in professional training,
- initiative,
- personal responsibility,
- ability to make decisions,
- system-oriented way of thinking
- suitability for cooperation, for participating in team work, and after the necessary practice the ability to perform management duties

**8. Fields of knowledge and skills for the Master's Degree and qualification:**

**8.1. Basic fields of knowledge necessary for the extension of knowledge obtained in the Bachelor Degree: 15-20 credits**

- ***social components of health conditions and welfare benefits:***  
the connections of social status, health status and way of life, basic epidemiology and demographics, health policy and economy, legislation of health care, patients' rights, health sociology, health psychology, welfare policies, insurance and financing schemes;

- **social work**: applied methods and intervention techniques of health social work, practice of social work;
- **health science knowledge**: environmental-health, job and food, human ecology, health promotion, health pedagogy.

### 8.2. Fields of knowledge of the professional core material: 50-60 credits

- **social work**: social work with elderly, health impaired, crisis intervention, social and health prevention, health social work, the ethics and economy of social assistance;
- **applied behaviour science, mental hygiene and psychology**: social-psychology and social psychiatry, psychology of deviance, basics of family psychology, psychology of illnesses, psychology of nursing, loss psychology, psychiatry, mental hygiene, psychiatry and psychotherapeutics;
- **rehabilitation and social integration**: rehabilitation, rehabilitation of special groups;
- **management**: health management, project management, research and methods, planning and evaluating of services;
- **health science**: health and social characteristics of special groups, health and social services

### 8.3. Elective optional field of knowledge of the professional core material: 35-50 credits

#### Fields of knowledge of the differentiated professional knowledge:

- **gerontology**: biological and physiological characteristics of ageing, social and political implications of the aging society, psychology of aging, chances of healthy aging, ecological gerontology, psychiatric illnesses in old age, the role of environment, work, nutrition and the society in the process of aging, health promotion in old age, special tasks of social work in elderly care;
- **studies of disability**: situation and quality of life of disabled people, equal opportunities and social inclusion, programs helping inclusion, rehabilitation of the disabled people,
- **mental illnesses and addictions**: health and social characteristics of mental illnesses and addictions, individual, family and community effects and their cultural components, prevention and treatment, therapeutic and mental hygiene methods, rehabilitation;
- **social work with long-term and chronic patients**: situation of patients struggling with chronic and non-infectious illnesses, groups at risk, prevention, targeted and effective assistance and the tool system of rehabilitation, dying and the process of grief.

#### Diploma work: 20 credits

### 9. Requirements of professional practice in connection with the education:

Intensive field practice for at least 15 credits is a part of the education. The duration of the intensive field practice is 400-450 hours. The intensive field practice can be divided between the fields of knowledge of the professional core material and the differentiated professional material.

### 10. Requirements of acquiring a foreign language:

The Master's Degree requires at least one complex (oral and written) intermediate (B2) language exam recognized by the state or an equivalent school leaving certificate in any living language that has scientific professional literature of the given profession be obtained.

**11. Admission requirements to Master's Degree Program:**

**11.1.** On the basis of the obtained *Bachelor qualification in Nursing and Patient Care, Health and Prevention, Health Care Management* 45 credits from Social Work and Social Policy basic studies should be acceptable on the basis of the Act on Higher Education.

The missing 20 credits should be obtained in parallel with the Master's Degree Program within two seminars according to the academic and examination rules of the higher educational institution.

**11.2.** On the basis of the obtained *Bachelor qualification in Political Science, Sociology, Social Studies, Pedagogy and Psychology* 45 credits from Social Work and Health Care basic studies should be acceptable on the basis of the Act on Higher Education. From the 45 credits at least 25 credits should be acceptable from social work and at least 20 credits from the topics of health care.

The missing 20 credits should be obtained in parallel with the Master's Degree Program within two seminars according to the academic and examination rules of the higher educational institution.

**11.3.** On the basis of the obtained *Bachelor qualification in the field of Teacher's Training*, 40 credits from Social Work and Social Policy and 20 credits from Health Care basic studies should be acceptable on the basis of the Act on Higher Education.

The condition of the Admission is that the students should have at least 30 credits in the listed fields of knowledge.

The additional missing 30 credits should be obtained in parallel with the Master's Degree Program according to the academic and examination rules of the higher educational institution.

## CHAPTER 8 CALENDAR

---

**OPENING CEREMONY:** 10th September, 2017

1st SEMESTER

**REGISTRATION WEEK:** 4th September - 8th September, 2017

<b>Year</b>	<b>Course</b>	<b>Examination Period</b>
1st year	11th September - 22nd December, 2017 (15 weeks)	27th December, 2017- 9th February 2018 (7 weeks)

2nd SEMESTER

**REGISTRATION WEEK:** 5th February - 9th February, 2018

<b>Year</b>	<b>Course</b>	<b>Examination Period</b>
1st year	12th February - 25th May, 2018 (15 weeks)	28th May - 13th July 2018 (7 weeks)

## CHAPTER 9

### ACADEMIC PROGRAM FOR CREDIT SYSTEM

---

In September, 2003, the introduction of the credit system became compulsory in every Hungarian university, including the University of Debrecen. The aim of the credit system is to ensure that the students' achievements can be properly and objectively evaluated both quantitatively and qualitatively.

A credit is a relative index of cumulative work invested in a compulsory, required elective or optional subject listed in the curriculum. The credit value of a course is based upon the number of lectures, seminars and practical classes of the given subject that should be attended or participated in (so called „contact hours”), and upon the amount of work required for studying and preparing for the examination(s) (in the library or at home). Together with the credit(s) assigned to a particular subject (quantitative index), students are given grades (qualitative index) on passing an exam/course/class. The credit system that has been introduced in Hungary is in perfect harmony with the European Credit Transfer System (ECTS). The introduction of the ECTS promotes student mobility, facilitates more organization of student' exchange programs aimed at further education in foreign institutions, and allows recognition of the students' work, studies and achievements completed in various foreign departments by the mother institution.

Credit-based training is flexible. It provides students with a wider range of choice, enables them to make progress at an individual pace, and it also offers students a chance to study the compulsory or required subjects at a different university, even abroad. Owing to the flexible credit accumulation system, the term „repetition of a year” does not make sense any longer.

It should be noted, however, that students do not enjoy perfect freedom in the credit system either, as the system does not allow students to randomly include subjects in their curriculum or mix modules.

Since knowledge is based on previous knowledge, it is imperative that the departments clearly and thoroughly lay down the requirements to be met before students start studying a subject.

*The general principles of the credit system are the following:*

According to the credit regulations, students should obtain an average of 30 credits in each semester. The criterion of obtaining 1 credit is to spend some 30 hours (including both contact and noncontact hours) studying the given subject. Credit(s) can only be obtained if students pass the exam on the given subject. Students accumulate the required amount of credits by passing exams on compulsory, required elective and optional subjects. Completion of every single compulsory credit course is one of the essential prerequisites of getting a degree. Courses belonging to the required elective courses are closely related to the basic subjects, but the information provided here is more detailed, and includes material not dealt within the frame of the compulsory courses. Students do not need to take all required elective courses, but they should select some of them wisely to accumulate the predetermined amount of credits from this pool. Finally, a certain amount of credits should be obtained by selecting from the optional courses, which are usually not closely related to the basic (and thus mandatory) subjects, but they offer a different type of knowledge.

Students can be given their degree if, having met other criteria as well, they have collected 120 credits during their studies. Considering the recommended curriculum, this can be achieved in four years.

## CHAPTER 9

---

The pilot curricula show the recommended pacing of compulsory courses. If these courses are carefully supplemented with credits obtained from the necessary number of required elective and optional courses, students can successfully accumulate the credits required for their degree within 4 semesters.

The diploma work is worth 20 credits.

Internship (supervised practices) in the final year is compulsory.

Regulations concerning the training of students in the credit system prescribe a minimum amount of credits for certain periods as outlined in the Regulations of Training and Examination (RTE).

**Compulsory courses for the 1. year**

Sem	Subjects	Neptun code	L	S	P	Exam	Crd	Prerequisites of taking the subject
1	Applied Research Methodology I.	EKTT-298-01N-EN		14		ESE	2	None

**CHAPTER 10**  
**ACADEMIC PROGRAM FOR THE 1ST YEAR**

Department of Health Informatics

Subject: **HEALTH MANAGEMENT STUDIES**

Year, Semester: 1st year/1st semester

Number of teaching hours:

Lecture: **28**

**1st week:**

**Lecture:**

History of the health care I.

**2nd week:**

**Lecture:**

History of the health care II.

**3rd week:**

**Lecture:** History of the health care III.

**4th week:**

**Lecture:** Finance system of the health care I.

**5th week:**

**Lecture:** Finance system of the health care II.

**6th week:**

**Lecture:**

The operation of outpatient care and the structure of inpatient care I.

**7th week:**

**Lecture:**

The operation of outpatient care and the structure of inpatient care II.

**8th week:**

**Lecture:**

The operation of outpatient care and the structure

of inpatient care III.

**9th week:**

**Lecture:** The importance of teamwork in health care I.

**10th week:**

**Lecture:** The importance of teamwork in health care II.

**11th week:**

**Lecture:** Health professionalization and integration I.

**12th week:**

**Lecture:** Health professionalization and integration II.

**13th week:**

**Lecture:** The place and role of controlling health care I.

**14th week:**

**Lecture:**

The place and role of controlling health care II.

**Requirements**

Prerequisite: -

Active participation is required. If it is necessary, further re-examinations will be arranged at later dates.

## Department of Psychology

Subject: **HEALTH PSYCHOLOGY AND MENTAL HYGIENE I.**

Year, Semester: 1st year/1st semester

Number of teaching hours:

Lecture: **28**

**1st week:**

**Lecture:** Health and mental health: health psychology, history of development of this discipline.

**2nd week:**

**Lecture:** The basic issue of health psychology and its main fields.

**3rd week:**

**Lecture:** Behavioural risk factors: 'behavioural pathogenes', the phenomenon of the learned helplessness and its mechanism.

**4th week:**

**Lecture:** Behavioural immunogenes: the abandonment of risk behaviours, positive psychology, flow, humor.

**5th week:**

**Lecture:** The critical reviewing and analysis of the views in connection with health and illnesses.

**6th week:**

**Lecture:** Communication — decision-making — cooperation.

**7th week:**

**Lecture:** The general models of mental health.

**8th week:**

**Lecture:** The models of health development.

**9th week:**

**Lecture:** The health belief models of health psychology.

**10th week:**

**Lecture:** Further models of health psychology. Cognitive, behavioural concepts, concepts concerning perceived control, behavioural intention and norms.

**11th week:**

**Lecture:** At the point of intersection of demands: the correspondence of health psychology to social demands versus the demand of health social work from health psychology versus development along inner principles.

**12th week:**

**Lecture:** Health psychology and self-management.

**13th week:**

**Lecture:** Human and material environment of health social work. The validity of ABX model.

**14th week:**

**Lecture:** Health psychological and mentalhygienic aspects of chronic ill, disabled and dying people's social care.

### Requirements

Prerequisite: There are no requirements to take the Health Psychology and Mental Hygiene I.

Attendance at lectures is highly recommended. The current knowledge of students will be evaluated in an oral exam based upon the lecture topics.

Department of Social Sciences

Subject: **APPLIED RESEARCH METHODOLOGY I.**

Year, Semester: 1st year/1st semester

Number of teaching hours:

Seminar: **14**

**1st week:**

**Lecture:** Language of research (types of questions, time in research, types of relationships).

**2nd week:**

**Lecture:** Variables, hypotheses, types of data, unit of analysis.

**3rd week:**

**Lecture:** Built research model. Statistical modelling.

**4th week:**

**Lecture:** Philosophy of research (deduction & induction, validity). Ethics in research.

**5th week:**

**Lecture:** Conceptualizing, problem formulation, concept mapping.

**6th week:**

**Lecture:** Evaluation research, the research cycle.

**7th week:**

**Lecture:** Sampling. Measurement. Reliability.

**8th week:**

**Lecture:** Survey Research. Scaling.

**9th week:**

**Lecture:** Interviews. Qualitative Measures. Experimental Design.

**10th week:**

**Lecture:** Analysis. Data Preparation. Descriptive Statistics.

**11th week:**

**Lecture:** Inferential Statistics. T-test, general linear model, regression.

**12th week:**

**Lecture:** Inferential Statistics. Crosstabs.

**13th week:**

**Lecture:** Write-Up.

**14th week:**

**Lecture:** Case studies

**Requirements**

Prerequisite:

The course requirement is:

- regular participation in lessons,
- active participation in the work,

I. oral exam and presentation of a research plan (written)

II. written task - presenting relevant case studies on the subject,

III. presenting (in writing or orally) case studies.

The Applied Research Methodology II. is not part of the training program!

Subject: **CLIENTS AND METHODS OF SOCIAL WORK**

Year, Semester: 1st year/1st semester

Number of teaching hours:

Lecture: **14**

Seminar: **14**

**1st week:**

**Lecture:** Family life cycles I.: family system theory; stages of marriage, families of preschool children and families with school-aged children.

**Seminar:** Presentation by students related to the topic of the lecture.

**2nd week:**

**Lecture:** Family life cycles II.: stages of families with teenagers, families with young people living home, middle-aged parents and aging families.

**Seminar:** Presentation by students related to the topic of the lecture.

**3rd week:**

**Lecture:** Death and dying I.: development of death of consciousness, stages of dying.

**Seminar:** Presentation by students related to the topic of the lecture.

**4th week:**

**Lecture:** Death and dying II.: hospice movement

**Seminar:** Presentation by students related to the topic of the lecture.

**5th week:**

**Lecture:** Grief I.: stages of normal grief.

**Seminar:** Presentation by students related to the topic of the lecture.

**6th week:**

**Lecture:** Grief II.: Forms of complicated grief, children and grief.

**Seminar:** Presentation by students related to the topic of the lecture.

**7th week:**

**Lecture:** People with chronic illness I.: definition of chronic illness, challenges and emotions associated with chronic illness.

**Seminar:** Presentation by students related to the topic of the lecture.

**8th week:**

**Lecture:** People with chronic illness II.: steps of grieving process, impact of chronic illness on the family, children with chronic illness, effective ways of coping.

**Seminar:** Presentation by students related to the topic of the lecture.

**9th week:**

**Lecture:** Suicide I.: Risk factors for and warning signs for suicide, impact of suicide on social relationships, specialty in grieving process.

**Seminar:** Presentation by students related to the topic of the lecture.

**10th week:**

**Lecture:** Suicide II.: child's and parent's suicide.

**Seminar:** Presentation by students related to the topic of the lecture.

**11th week:**

**Lecture:** Child with disability I.: Factors lead to variability in the impact of disability on the family.

**Seminar:** Presentation by students related to the topic of the lecture.

**12th week:**

**Lecture:** Child with disability II.: feelings and emotions of family members.

**Seminar:** Presentation by students related to the topic of the lecture.

**13th week:**

**Lecture:** Methods I.: Genogram.

**Seminar:** Presentation by students related to the topic of the lecture.

**14th week:**

**Lecture:** Methods II.: Family photos.

**Seminar:** Presentation by students related to the topic of the lecture.

**Requirements**

Prerequisite: There are no requirements to take the Clients and Methods of Social Work.

Requirements:

- regular participation in lessons,
- active participation in the work,

-in order to complete the course and get practical market the lecturer gives a list of titles related to the course from which each student must choose one and present it in as oral presentation.

Subject: **HEALTH POLICY**

Year, Semester: 1st year/1st semester

Number of teaching hours:

Lecture: **28**

**1st week:**

**Lecture:**

Introduction to health policy. Roles and tasks of health policy.

**2nd week:**

**Lecture:**

International models of health system finance.

**3rd week:**

**Lecture:**

Assessing need and demand of health care. Measurement of health need and access to health care.

**4th week:**

**Lecture:**

Relationship between public health and health policy. Legal and ethical issues of public health policy.

**5th week:**

**Lecture:**

The main components of the costs of health care system.

**6th week:**

**Lecture:**

Health policy at EU level.

**7th week:**

**Lecture:**

Main characteristics of the health care system in the US.

**8th week:**

**Lecture:**

Health care reforms and cost reduction strategies in Europe.

**9th week:**

**Lecture:**

Health care reforms in the Central and Eastern European countries.

**10th week:**

**Lecture:**

Health care system and its financing in Hungary.

**11th week:**

**Lecture:**

Health care reforms in Hungary.

**12th week:**

**Lecture:**

Health policy and delivery of health care. Case study I.

**13th week:**

**Lecture:**

Health policy and delivery of health care. Case study II.

**14th week:**

**Lecture:**

Consultation. Final test.

### Requirements

Attendance at lectures is highly recommended, since the material covered in the lectures will be on the examination.

Testing, evaluation

The students must sit for an end-term written test. The test consists of multiple choice questions and essay questions.

Final written exam will be graded as follows:

Percentage (%) Grade

0-59 fail (1)

60-69 pass (2)

70-79 satisfactory (3)

80-89 good (4)

90-100 excellent (5)

Lectures and supplementary materials will be available in the Moodle.

Subject: **HEALTH AND SOCIAL LAW I.**

Year, Semester: 1st year/1st semester

Number of teaching hours:

Lecture: **14**

**1st week:**

**Lecture:** Introduction to Health Care and Social Law.

**2nd week:**

**Lecture:** Relationship between Health and Social Law and other fields of law; The role of health care in the national (state) insurance system.

**3rd week:**

**Lecture:** The features of insurance benefits.

**4th week:**

**Lecture:** Health care and social benefits in Employment Law: sick leave, maternity leave and paternity leave.

**5th week:**

**Lecture:** Funds of the health care system.

**6th week:**

**Lecture:** The national health care system in Hungary – Benefits in kind I.

<p><b>7th week:</b>  <b>Lecture:</b> The national health care system in Hungary – Benefits in kind II.</p> <p><b>8th week:</b>  <b>Lecture:</b> Patients’ rights in Hungary.</p> <p><b>9th week:</b>  <b>Lecture:</b> The national health care system in Hungary – Benefits: sickness benefits.</p> <p><b>10th week:</b>  <b>Lecture:</b> The national health care system in Hungary – Benefits: maternity benefits.</p> <p><b>11th week:</b>  <b>Lecture:</b> The national health care system in</p>	<p>Hungary – Benefits: disability benefits.</p> <p><b>12th week:</b>  <b>Lecture:</b> Health care and social benefits in the social security system I.</p> <p><b>13th week:</b>  <b>Lecture:</b> Health care and social benefits in the social security system II.</p> <p><b>14th week:</b>  <b>Lecture:</b> Benefits for families.</p>
---	---

### Requirements

Prerequisite: –

In order to complete the course the lecturer gives a list of titles related to the course from which each student needs to choose one and write a 5-page essay about it by the end of the semester.

Subject: **HEALTH AND PENSION INSURANCE SYSTEMS**

Year, Semester: 1st year/1st semester

Number of teaching hours:

Lecture: **14**

<p><b>1st week:</b>  <b>Lecture:</b> The development of the insurance structure I.</p> <p><b>2nd week:</b>  <b>Lecture:</b> The development of the insurance structure II.</p> <p><b>3rd week:</b>  <b>Lecture:</b> The development of the insurance structure III.</p> <p><b>4th week:</b>  <b>Lecture:</b> The development of the insurance structure IV.</p>	<p><b>5th week:</b>  <b>Lecture:</b> “Pay as you go” system in the social insurance I.</p> <p><b>6th week:</b>  <b>Lecture:</b> “Pay as you go” system in the social insurance II.</p> <p><b>7th week:</b>  <b>Lecture:</b> Essential elements of the “third party paid” I.</p> <p><b>8th week:</b>  <b>Lecture:</b> Essential elements of the “third party</p>
---	---

paid” II.

**9th week:**

**Lecture:** Mechanism of strict/soft budget constraints I.

**10th week:**

**Lecture:** Mechanism of strict/soft budget constraints II.

**11th week:**

**Lecture:** Mechanism of strict/soft budget constraints III.

**12th week:**

**Lecture:** Law system of the health and pension structure I.

**13th week:**

**Lecture:** Law system of the health and pension structure II.

**14th week:**

**Lecture:** Law system of the health and pension structure III.

**Requirements**

Prerequisite:

Active participation is required. If it is necessary, further re-examinations will be arranged at later dates.

Subject: **QUALITY ASSURANCE IN SOCIAL AND HEALTH SYSTEMS**

Year, Semester: 1st year/1st semester

Number of teaching hours:

Lecture: **14**

**1st week:**

**Lecture:** Basic definitions (quality policy, quality assurance, quality management, quality development). Quality management and quality development in health care and social services.

**2nd week:**

**Lecture:** Management and Leadership in Quality Engineering. Management systems for improving quality. Cost of quality. Quality philosophies and approaches. Customer needs, and satisfaction.

**3rd week:**

**Lecture:** Management and Leadership in Quality Engineering. Management systems for improving quality. Cost of quality. Quality philosophies and approaches. Customer needs, and satisfaction.

**4th week:**

**Lecture:** Management and Leadership in Quality Engineering. Management systems for improving quality. Cost of quality. Quality philosophies and approaches. Customer needs, and satisfaction.

**5th week:**

**Lecture:** Quality Systems Development, Implementation, and Verification. Elements of a quality system. Documentation systems. Standards and specifications. Quality audits.

**6th week:**

**Lecture:** Quality Systems Development, Implementation, and Verification. Elements of a quality system. Documentation systems. Standards and specifications. Quality audits.

**7th week:**

**Lecture:** Planning, Controlling and Assuring

Product and Process Quality. Processes for planning product and service development.	Improvement.
<b>8th week:</b> <b>Lecture:</b> Planning, Controlling and Assuring Product and Process Quality. Processes for planning product and service development.	<b>13th week:</b> <b>Lecture:</b> Quantitative Methods. Concepts of probability and statistics. Statistical decision-making. Statistical Process Control.
<b>9th week:</b> <b>Lecture:</b> Reliability and Risk Management.	<b>14th week:</b> <b>Lecture:</b> Quantitative Methods. Concepts of probability and statistics. Statistical decision-making. Statistical Process Control.
<b>10th week:</b> <b>Lecture:</b> Reliability and Risk Management.	<b>15th week:</b> <b>Lecture:</b> Quantitative Methods. Concepts of probability and statistics. Statistical decision-making. Statistical Process Control.
<b>11th week:</b> <b>Lecture:</b> Problem Solving and Quality Improvement.	
<b>12th week:</b> <b>Lecture:</b> Problem Solving and Quality	

### Requirements

Prerequisite: -

Requirements:

The course requirement is

- regular participation in lessons,
- active participation in the work,
- presenting (in writing or orally) relevant case studies on the subject.

Subject: **SOCIOLOGY OF HEALTH**

Year, Semester: 1st year/1st semester

Number of teaching hours:

Lecture: **14**

Seminar: **14**

**1st week:**

**Lecture:** Evolution and aims of medical sociology I.

**Seminar:** Interactive processing of the lecture's material.

**2nd week:**

**Lecture:** Evolution and aims of medical sociology II.

**Seminar:** Interactive processing of the lecture's material.

**3rd week:**

**Lecture:** Social and health inequalities, poverty, social exclusion, social inclusion I.

**Seminar:** Interactive processing of the lecture's material.

**4th week:**

**Lecture:** Social and health inequalities, poverty, social exclusion, social inclusion II.

**Seminar:** Interactive processing of the lecture's material.

**5th week:**

**Lecture:** Social and health inequalities, poverty, social exclusion, social inclusion III.

**Seminar:** Interactive processing of the lecture's material.

**6th week:**

**Lecture:** Gender study and health inequalities.

**Seminar:** Interactive processing of the lecture's material.

**7th week:**

**Lecture:** Changes and models of the doctor-patient relationship.

**Seminar:** Interactive processing of the lecture's material.

**8th week:**

**Lecture:** Links between the social interactions and health status.

**Seminar:** Interactive processing of the lecture's material.

**9th week:**

**Lecture:** Religion and health position.

**Seminar:** Interactive processing of the lecture's material.

**10th week:**

**Lecture:** Patterns of the deviant behaviour and health status I.

**Seminar:** Interactive processing of the lecture's material.

**11th week:**

**Lecture:** Patterns of the deviant behaviour and health status II.

**Seminar:** Interactive processing of the lecture's material.

**12th week:**

**Lecture:** Methods of medical sociology (qualitative ways).

**Seminar:** Interactive processing of the lecture's material.

**13th week:**

**Lecture:** Methods of medical sociology (quantitative ways) I.

**Seminar:** Interactive processing of the lecture's material.

**14th week:**

**Lecture:** Methods of medical sociology (quantitative ways) II.

**Seminar:** Interactive processing of the lecture's material.

**Requirements**

Prerequisite: -

Active participation is required. If it is necessary, a second re-examination will be arranged at a later date.

## Department of Social Work

Subject: **HEALTH SOCIAL WORK FIELD PRACTICE I.**

Year, Semester: 1st year/1st semester

Number of teaching hours:

Practical: **28**

**Content:**

Students will learn about health social work in institutions, social services and health care systems. Students will be involved in external professional training, in medical and social institutions. There they will work with clients from various fields of health social work. In this training the students will learn the methods and forms of work of health social work. There will be small group seminars that will focus on the competencies of health social work to include the operation of the institution, the patients' medical problems, and methods of intervention that are

used where students are doing their field exercise.

Course type: field practice, seminars and case discussions

Study methods: writing a field journal, oral presentations, preparation of papers, drafting presentation of the field trip experience and case discussions.

### Requirements

Prerequisite: -

Requirement: Students keep a report of their experiences, and the applied methods of social work that were used in the field institution. Students prepare reports about social work in the hospital on topics they choose. In the reports students must use publications, interviews with social workers and clients and they can also use their own experience. The size of the article is 10.000 characters with spaces.

## Department of Theoretical and Integrative Health Studies

Subject: **BASICS OF HEALTH SCIENCES I.**

Year, Semester: 1st year/1st semester

Number of teaching hours:

Lecture: **28**

Seminar: **14**

**1st week:**

**Lecture:** Definition of health and illness. Biological and environmental factors affecting the health status. Development of pathological processes, aetiology and course of diseases. Non-communicable and communicable diseases.

Definition of disability. Prevention, curation and rehabilitation. Composition of a healthcare team.

**Seminar:** Introduction to the e-learning course. Composition of a health care team, role of a health social worker in the team.

**2nd week:**

**Lecture:** Fundamentals in physiology and pathophysiology, introduction to medical terminology. Structure of the human body: cells, tissues, organs and systems of organs. Function of a healthy human body, controlling mechanisms.

**Seminar:** Defense mechanisms, vaccination, immune deficiency, AIDS.

**3rd week:**

**Lecture:** Structure and function of the movement system. Calcium handling in normal and pathologic conditions, osteoporosis. Joints and skeletal muscles.

**Seminar:** Disturbed blood supply to the heart, angina pectoris and AMI, risk factors.

**4th week:**

**Lecture:** Structure and function of the cardiovascular system. Impulse generation and conduction in the heart, the heart as a pump. Characterisation of normal and abnormal function. Diagnostic tools (ECG, ultrasonography). Blood supply to the heart; myocardial infarct.

**Seminar:** Age-dependent changes in the cardiovascular system.

**5th week:**

**Lecture:** Structure of vessels, features of the peripheral circulation. Blood pressure. Development and complications of hypertension. Arteriosclerosis. Hypotension, collapse, circulatory shock. The blood as the circulating body fluid.

**Seminar:** Normal and abnormal blood pressure, risk factors of cardiovascular diseases.

**6th week:**

**Lecture:** Structure and function of the respiratory system in normal and pathologic condition. Most frequent pulmonary diseases (risk factors and prevention).

**Seminar:** Allergic respiratory diseases, COPD, malignant tumours, risk factors.

**7th week:**

**Lecture:** Structure and function of the

gastrointestinal tract. Digestion and absorption. Abnormal function, the most frequent diseases. Role of the liver; hepatitis, cirrhosis.

**Seminar:** Alcohol abuse and dependence, somatic and psychic complications.

**8th week:**

**Lecture:** Nutrition. Characteristics of the healthy diet. Starvation; obesity and its complications. Energy balance.

**Seminar:** Thermoregulation: fever, hyperthermia.

**9th week:**

**Lecture:** Structure and function of the excretory organs. Renal insufficiency, uraemia. Disturbed electrolyte and water balance.

**Seminar:** Chronic renal diseases and quality of life.

**10th week:**

**Lecture:** System of the endocrine glands; characteristics of the hormonal regulation. Hormonal regulation of the blood glucose level. Diabetes mellitus: aetiology and complications.

**Seminar:** Hormonal dysfunctions, hormonal contraception.

**11th week:**

**Lecture:** Motor function of the nervous system. Voluntary and reflex regulation of the movement, coordination. Paralysis.

**Seminar:** Disturbed cerebral circulation. Stroke, risk factors.

**12th week:**

**Lecture:** Features of the autonomic regulation of internal organs. Synergism in the neural and hormonal regulation. Alarm reaction; stress adaptation.

**Seminar:** Discussion of the regulation of visceral functions.

**13th week:**

**Lecture:** Features of the autonomic regulation of internal organs. Synergism in the neural and hormonal regulation. Alarm reaction; stress adaptation.

**Seminar:** Psychosomatic diseases.

<p><b>14th week:</b>  <b>Lecture:</b> Higher functions of CNS.  <b>Seminar:</b> Evaluation of the e-learning activity.</p>	<p>Closing the course.</p>
--	----------------------------

### Requirements

**Prerequisite:** none

It is strongly recommended to attend the lectures, and it is compulsory to take part in the e-learning activity. The signature of the Lecture Book may be refused for the semester if one does not show any activity in the e-learning module.

The course content and requirements are the same in the full-time and part-time program. The number of contact hours is 10 and 5 as lectures and seminars, resp. in adequate grouping according to the actual timetable for part-time students.

At the end of the semester, students take a written end of semester exam (ESE) in the Moodle system. Grades will be given as follows:

0-59%: fail (1)

60-69%: pass (2)

70-79%: satisfactory (3)

80-89%: good (4)

90-100%: excellent (5)

25% of the scores can be achieved in the e-learning module. The scores (maximum 25%) will be added to the score achieved in the ESE test

## Department of Nursing Science

Subject: **REHABILITATION I.**

Year, Semester: 1st year/2nd semester

Number of teaching hours:

Lecture: **14**

Seminar: **14**

**1st week:**

**Lecture:** History of rehabilitation.

**Seminar:** Introduction of the rehabilitation department (hospital, rehabilitation unit).

**2nd week:**

**Lecture:** Theory of rehabilitation.

**Seminar:** Introduction of the rehabilitation department (hospital, rehabilitation unit).

**3rd week:**

**Lecture:** Incidence of disability, characteristics of rehabilitation activity.

**Seminar:** Patient record assessment.

**4th week:**

**Lecture:** Rehabilitation-team, members' competencies.

**Seminar:** Patient record assessment.

**5th week:**

**Lecture:** System of rehabilitation services.

**Seminar:** FIM scale assessment.

**6th week:**

**Lecture:** Functional examinations.

**Seminar:** FIM scale assessment.

**7th week:**

**Lecture:** Nursing in the rehabilitation.

**Seminar:** Participation in the physiotherapy practice.

**8th week:**

**Lecture:** Importance of the nutrition during the rehabilitation.

**Seminar:** Participation in the physiotherapy practice.

**9th week:**

**Lecture:** Possibility of the physiotherapy in the rehabilitation.

**Seminar:** Participation in the rehabilitation practice.

**10th week:**

**Lecture:** Ergotherapy.

**Seminar:** Participation in the rehabilitation practice.

**11th week:**

**Lecture:** Knowledge from the aids.

**Seminar:** Participation in the ergotherapy practice.

**12th week:**

**Lecture:** Speech-therapy in the rehabilitation.

**Seminar:** Participation in the ergotherapy practice.

**13th week:**

**Lecture:** Conductive pedagogy in the rehabilitation.

**Seminar:** Participation in the paediatric rehabilitation unit practice.

**14th week:**

**Lecture:** Psychotherapy in the rehabilitation.

**Seminar:** Participation in the paediatric rehabilitation unit practice.

### Requirements

**Pre-requirements:** None

## Department of Psychology

Subject: **HEALTH PSYCHOLOGY AND MENTAL HYGIENE II.**

Year, Semester: 1st year/2nd semester

Number of teaching hours:

Lecture: **14**

Seminar: **14**

**1st week:**

**Lecture:** Introduction. The summary of the previous course: Health Psychology and Mental Hygiene I.

**Seminar:** Student presentations related to the topic of the lecture.

**2nd week:**

**Lecture:** Stress. Psychological and physiological aspects of stress. Defining stress. Eustress and distress

**Seminar:** Student presentations related to the topic of the lecture.

<p><b>3rd week:</b>  <b>Lecture:</b> Stress and illness. Moderators of stress: social support and coping behaviour.  <b>Seminar:</b> Student presentations related to the topic of the lecture.</p>	<p>affective and cognitive processes.  <b>Seminar:</b> Student presentations related to the topic of the lecture.</p>
<p><b>4th week:</b>  <b>Lecture:</b> Positive psychology and coping behaviour.  <b>Seminar:</b> Student presentations related to the topic of the lecture.</p>	<p><b>10th week:</b>  <b>Lecture:</b> The role of psychology in pain treatment. The role of psychological interventions in the management of patients with chronic pain.  <b>Seminar:</b> Student presentations related to the topic of the lecture.</p>
<p><b>5th week:</b>  <b>Lecture:</b> Gender and health I. Women's health issues.  <b>Seminar:</b> Student presentations related to the topic of the lecture.</p>	<p><b>11th week:</b>  <b>Lecture:</b> The role of placebo and nocebo effects in health psychology.  <b>Seminar:</b> Student presentations related to the topic of the lecture.</p>
<p><b>6th week:</b>  <b>Lecture:</b> Gender and health II. Men's health issues.  <b>Seminar:</b> Student presentations related to the topic of the lecture.</p>	<p><b>12th week:</b>  <b>Lecture:</b> Prevention and intervention. Risk behaviours. Health behaviours and health behaviour change.  <b>Seminar:</b> Student presentations related to the topic of the lecture.</p>
<p><b>7th week:</b>  <b>Lecture:</b> Health psychology and public health. Eating behaviour. Obesity. Physiological and psychological consequences.  <b>Seminar:</b> Student presentations related to the topic of the lecture.</p>	<p><b>13th week:</b>  <b>Lecture:</b> Prevention and intervention in different ages. Prevention programs.  <b>Seminar:</b> Student presentations related to the topic of the lecture.</p>
<p><b>8th week:</b>  <b>Lecture:</b> Lifestyle and health psychology: exercise, sleep, sexual behaviour e.g.  <b>Seminar:</b> Student presentations related to the topic of the lecture.</p>	<p><b>14th week:</b>  <b>Lecture:</b> Work-related Mental Consequences. Mental health issues of helping professionals. Burnout.  <b>Seminar:</b> Student presentations related to the topic of the lecture.</p>
<p><b>9th week:</b>  <b>Lecture:</b> Pain, pain perception: Subjective,</p>	

### Requirements

Prerequisite: Health Psychology and Mental Hygiene I.

**Requirements:**

-regular participation in lessons,

-active participation in the work,

-in order to complete the course and get practical market the lecturer gives a list of titles related to the course from which each student must choose one and present it as an oral presentation.

## Department of Social Sciences

Subject: **APPLIED RESEARCH METHODOLOGY III.**

Year, Semester: 1st year/2nd semester

Number of teaching hours:

Seminar: **14**

**1st week:**

**Seminar:** Standard tests in social and health systems. Theory and practice.

**2nd week:**

**Seminar:** Standard tests in social and health systems. Theory and practice.

**3rd week:**

**Seminar:** Standard tests in social and health systems. Theory and practice.

**4th week:**

**Seminar:** Case studies and real examples. Practical calculations using the R software package.

**5th week:**

**Seminar:** Case studies and real examples. Practical calculations using the R software package.

**6th week:**

**Seminar:** Case studies and real examples. Practical calculations using the R software package.

**7th week:**

**Seminar:** Case studies and real examples. Practical calculations using the R software package.

**8th week:**

**Seminar:** Case studies and real examples. Practical calculations using the R software package.

**9th week:**

**Seminar:** Case studies and real examples. Practical calculations using the R software package.

**10th week:**

**Seminar:** Case studies and real examples. Practical calculations using the R software package.

**11th week:**

**Seminar:** Case studies and real examples. Practical calculations using the R software package.

**12th week:**

**Seminar:** Case studies and real examples. Practical calculations using the R software package.

**13th week:**

**Seminar:** Case studies and real examples. Practical calculations using the R software package.

**14th week:**

**Seminar:** Case studies and real examples.

Practical calculations using the R software package.

### Requirements

Prerequisite: Applied Research Methodology I.

The course requirement is:

- regular participation in lessons,
- active participation in the work,
- I. oral exam and presentation of a research plan (written)

II. written task - presenting relevant case studies on the subject,

III. presenting (in writing or orally) case studies.

The Applied Research Methodology II. is not a part of the training program!

Subject: **FIELDS AND METHODS OF HEALTH SOCIAL WORK I.**

Year, Semester: 1st year/2nd semester

Number of teaching hours:

Lecture: **28**

**1st week:**

**Lecture:** The common approach of social and health problems, and systems.

**2nd week:**

**Lecture:** Definitions of health social work (Based on the NASW's definitions, and standards).

**3rd week:**

**Lecture:** History and development of health social work.

**4th week:**

**Lecture:** The effects of illness to the social conditions.

**5th week:**

**Lecture:** The effects of the health care to the social situation. The population who lives in a risk of health exclusion.

**6th week:**

**Lecture:** How the social exclusion creates health risks?

**7th week:**

**Lecture:** International movements against the poverty and disadvantage situations of humans.

**8th week:**

**Lecture:** The WHO's programmes to promote better health for excluded groups.

**9th week:**

**Lecture:** Good practices, and their analysis I.

**10th week:**

**Lecture:** Good practices, and their analysis II.

**11th week:**

**Lecture:** Good practices, and their analysis II.

**12th week:**

**Lecture:** Comparative study on social problems, health systems, vulnerable groups, national responds, and the role of the health and social professionals I.

**13th week:**

**Lecture:** Comparative study on social problems,

health systems, vulnerable groups, national responds, and the role of the health and social professionals II.

### Requirements

Prerequisite: Clients and Methods of Social Work

Subject: **HEALTH AND SOCIAL LAW II.**

Year, Semester: 1st year/2nd semester

Number of teaching hours:

Seminar: **14**

**1st week:**

**Seminar:** Introduction to the Hungarian judicial system.

**2nd week:**

**Seminar:** Patients' rights and the responsibilities of the employees of health care service providers I.

**3rd week:**

**Seminar:** Patients' rights and the responsibilities of the employees of health care service providers II.

**4th week:**

**Seminar:** Liability for damages in Civil Law.

**5th week:**

**Seminar:** Liability for damages in Labor Law I.

**6th week:**

**Seminar:** Liability for damages in Labor Law II.

**7th week:**

**Seminar:** Liability for damages in Criminal Law I.

**8th week:**

**Seminar:** Liability for damages in Criminal Law II.

**9th week:**

**Seminar:** Medical liability in the European Union I.

**10th week:**

**Seminar:** Medical liability in the European Union II.

**11th week:**

**Seminar:** Civil procedures related to the liability of health care service providers

**12th week:**

**Seminar:** Civil procedures related to the liability of the employees of health care service providers

**13th week:**

**Seminar:** Procedures related to the benefits of the national (state) insurance system

**14th week:**

**Seminar:** Procedures related to the benefits of the social security system.

### Requirements

Prerequisite: Health and Social Law I.

In order to complete the course the lecturer gives a list of titles related to the course from which each student needs to choose one and write a 5-page essay about it by the end of the semester, using the case law discussed during the course.

## Department of Social Work

Subject: **HEALTH SOCIAL WORK FIELD PRACTICE II.**

Year, Semester: 1st year/2nd semester

Number of teaching hours:

Practical: **42**

<p><b>Content:</b> The course provides models of competencies of health social work to students. Students will work with professionals in various types of services. They will perform field practice in small groups, under the guidance of professional instructors and will individually perform tasks tailored directly to the students, who will be involved into services provided to clients. They will prepare short surveys (e.g. interviews, environmental studies) describing the social status of the clients. The seminar will be held in small groups, with the aim of processing the clients' problems, methods of intervention,</p>	<p>the operation of services, and learning the competencies of medical social work.</p> <p>Course type: field practice, seminars and case discussions.</p> <p>Study methods: writing a field journal, oral presentations, preparation of papers, drafting presentation of the field trip experience and case discussions.</p>
---	---

### Requirements

Prerequisite: Health Social Work Field Practice I.

Requirement: Students keep a report of their experiences, and the applied methods of social work that were used in the field institution. Students write the social history of 2 clients in the field institution. They collect information and conduct interviews, draw a genogram, and an ecomap of the clients and their supporting network. The students will have to write the medical social histories of the clients after analyzing their problems.

## Department of Theoretical and Integrative Health Studies

Subject: **BASICS OF HEALTH SCIENCES II.**

Year, Semester: 1st year/2nd semester

Number of teaching hours:

Seminar: **28**

**1st week:**

**Seminar:** Introduction to the course. Requirements. Topic choice.

**2nd week:**

**Seminar:** Clinical relations of cardiovascular diseases.

**3rd week:**

**Seminar:** Cardiovascular diseases: effects on the quality of life.

**4th week:**

**Seminar:** Disorders of the respiratory system: pathomechanism and symptoms of the diseases with high relevance to public health; tools for prevention.

**5th week:**

**Seminar:** Hepatic diseases: cirrhosis, hepatitis, methods in prevention.

**6th week:**

**Seminar:** Renal diseases: nephritis, renal insufficiency, uraemia; kidney transplantation, haemodialysis.

**7th week:**

**Seminar:** Risk factors, pathomechanism, symptoms and social relations of diabetes mellitus.

**8th week:**

**Seminar:** Diseases of the nervous system.

**9th week:**

**Seminar:** Effects of neural diseases on the quality of life.

**10th week:**

**Seminar:** Dementia. Clinical relations, explorative techniques.

**11th week:**

**Seminar:** Physiotherapy and ergotherapy in the neural disorders.

**12th week:**

**Seminar:** Assessment of ADL functions.

**13th week:**

**Seminar:** Diseases of the musculoskeletal system (arthritis, arthrosis, myopathies) and their social relations.

**14th week:**

**Seminar:** Evaluation of the mid-semester activity, closing the course.

### Requirements

Prerequisite: Basics of Health Sciences I.

It is compulsory to attend all the contact hours and to take part in the e-learning activity. The signature of the Lecture Book may be refused for the semester if one does not show any activity in the e-learning module.

The course content and requirements are the same in the full-time and part-time programme. The number of contact hours in part-time programme is 10 seminars, in adequate grouping according to the actual timetable for the part-time students.

At the end of the semester the activity in the Moodle system will be evaluated. The grade will be

given according to the next:

0-59%: fail (1)

60-69%: pass (2)

70-79%: satisfactory (3)

80-89%: good (4)

90-100%: excellent (5)

## CHAPTER 11

### ACADEMIC PROGRAM FOR THE 2ND YEAR

#### Department of Health Visitor Methodology and Public Health

Subject: **SOCIAL SURROUNDINGS AND EPIDEMIOLOGY**

Year, Semester: 2nd year/1st semester

Number of teaching hours:

Lecture: **14**

Seminar: **14**

#### 1st week:

**Lecture:** Introduction to social epidemiology. Social determinants of health.

**Seminar:** Measurement of social inequalities. Health and social indicators.

#### 2nd week:

**Lecture:** The spatial differences in mortality. Mortality trends and differences in Hungary.

**Seminar:** Subregional differences in mortality and the social determinants of mortality.

#### 3rd week:

**Lecture:** Relationship between educational level and mortality in Hungary. Life expectancy at age 30 and 60 according to educational level.

**Seminar:** Relationship between educational level and mortality. Case- study.

#### 4th week:

**Lecture:** Relationship between educational level and mortality in Hungary. Ischemic heart diseases, breast cancer, cancer diseases.

**Seminar:** Relationship between educational level and mortality. Case- study.

#### 5th week:

**Lecture:** The socio-economic situation of the Roma population in EU.

**Seminar:** EU level strategy and programs for social inclusion of the Roma population.

#### 6th week:

**Lecture:** The socio-economic situation of the Roma population in Hungary.

**Seminar:** Hungarian strategy and programs for social inclusion of the Roma population.

#### 7th week:

**Lecture:** Health status of the Roma population in the EU.

**Seminar:** Good practices to improve health status of the Roma population in the EU.

#### 8th week:

**Lecture:** Health status of the Roma population in Hungary.

**Seminar:** Good practices to improve health status of the Roma population in Hungary.

#### 9th week:

**Lecture:** Access to health care of the Roma population.

**Seminar:** Good practices to improve access to health care of the Roma population.

#### 10th week:

**Lecture:** Social determinants of infectious diseases.

**Seminar:** International programs to reduce the incidence and mortality of infectious diseases.

#### 11th week:

**Lecture:** Social determinants of maternal and child mortality.

**Seminar:** International programs to reduce maternal and child mortality.

#### 12th week:

**Lecture:** Tackling health inequalities in the EU.

**Seminar:** Students' presentations.

**13th week:**

**Lecture:** Tackling health inequalities in Hungary.

**Seminar:** Students' presentations.

**14th week:**

**Lecture:** Consultation. Final test.

**Seminar:** Consultation.

**Requirements**

Prerequisite: Basics of Health Sciences I.

Attendance on lectures is highly recommended, since the topics in examination cover the lectured topics. Attendance of practices is compulsory. The maximum percentage of allowable absences is 10 % which is a total of 2 out of the 14 weekly classes. If the number of absences is more than 2, the final signature is refused and the student must repeat the course.

Testing, evaluation

Each full time student must prepare an oral presentation from a freely chosen topic related to the subject. Each part time student must prepare a max. 5 pages written essay from a freely chosen topic related to the subject. The students also must sit for one written test. The grade of the final result will be determined by calculating of the average grade of the oral presentation/written essay and the final written exam.

Final written exam will be assessed as follows:

Percentage (%) Grade

0-59 fail (1)

60-69 pass (2)

70-79 satisfactory (3)

80-89 good (4)

90-100 excellent (5)

Lectures and supplementary materials will be available in the Moodle.

**Department of Nursing Science**

Subject: **REHABILITATION II.**

Year, Semester: 2nd year/1st semester

Number of teaching hours:

Lecture: **28**

**1st week:**

**Lecture:** General rehabilitation studies, basic definition of rehabilitation.

**Seminar:** Rehabilitation, patients' observation, the analysis of the professional's work.

**2nd week:**

**Lecture:** General rehabilitation studies, basic definition of rehabilitation.

**Seminar:** Rehabilitation, patients' observation, the analysis of the professional's work.

**3rd week:**

**Lecture:** The essence and the possibilities of medical rehabilitation.

**Seminar:** Rehabilitation, patients' observation, the analysis of the professional's work.

**4th week:**

**Lecture:** The essence and the possibilities of medical rehabilitation.

**Seminar:** Rehabilitation, patients' observation, the analysis of the professionals' work.

**5th week:**

**Lecture:** Assessment and planning in medical rehabilitation.

**Seminar:** Rehabilitation, patients' observation, the analysis of the professionals' work.

**6th week:**

**Lecture:** Assessment and planning in medical rehabilitation.

**Seminar:** Rehabilitation, patients' observation, the analysis of the professionals' work.

**7th week:**

**Lecture:** The importance of the team-work, the role of the social work in the rehabilitation.

**Seminar:** Rehabilitation, patients' observation, the analysis of the professionals' work.

**8th week:**

**Lecture:** The importance of the team-work, the role of the social work in the rehabilitation.

**Seminar:** Rehabilitation, patients' observation, the analysis of the professionals' work.

**9th week:**

**Lecture:** Rehabilitation in different specializations: cardiology-, rheumatology patients' rehabilitation.

**Seminar:** Rehabilitation, patients' observation, the analysis of the professionals' work.

**10th week:**

**Lecture:** Rehabilitation in different specializations: cardiology-, rheumatology patients' rehabilitation.

**Seminar:** Rehabilitation, patients' observation, the analysis of the professionals' work.

**11th week:**

**Lecture:** The goal and the process of the occupational therapy.

**Seminar:** The analysis of the special group's rehabilitation.

**12th week:**

**Lecture:** The goal and the process of the occupational therapy.

**Seminar:** Case-studies.

**13th week:**

**Lecture:** The rehabilitation of patients with reduced capacity.

**Seminar:** Case-studies.

**14th week:**

**Lecture:** The rehabilitation of patients with reduced capacity.

**Seminar:** Introduction of the labor-market services.

**Requirements**

**Pre-requirements:** Rehabilitation I.

## Department of Psychology

Subject: **DEVIANCE AND BEHAVIOUR DISORDERS**

Year, Semester: 2nd year/1st semester

Number of teaching hours:

Lecture: **14**

Seminar: **14**

**1st week:**

**Lecture:** Deviance and basis concept, forms and functions of deviance.

**Seminar:** Interactive processing of the lecture's material.

**2nd week:**

**Lecture:** Possibilities for measuring deviant behaviour. Theories of deviance. Treatment option of deviance.

**Seminar:** Interactive processing of the lecture's material.

**3rd week:**

**Lecture:** Psychological aspect, risk factors and protective factors of suicide.

**Seminar:** Interactive processing of the lecture's material.

**4th week:**

**Lecture:** Cry for help, presuicidal syndrome and protection of acut suicide risk.

**Seminar:** Interactive processing of the lecture's material.

**5th week:**

**Lecture:** Psychoactive drugs, addictive spectrum disorders, abuse, dependence.

**Seminar:** Interactive processing of the lecture's material.

**6th week:**

**Lecture:** Alcoholism, symptoms of chronic alcoholism, psychological modells and therapeutic options.

**Seminar:** Interactive processing of the lecture's material.

**7th week:**

**Lecture:** The basic concepts of socialization and

socializations disorders.

**Seminar:** Interactive processing of the lecture's material.

**8th week:**

**Lecture:** The importance of the family in the process of socialization.

**Seminar:** Interactive processing of the lecture's material.

**9th week:**

**Lecture:** Disorders of mother and child relationship I.

**Seminar:** Interactive processing of the lecture's material.

**10th week:**

**Lecture:** Disorders of mother and child relationship II.

**Seminar:** Interactive processing of the lecture's material.

**11th week:**

**Lecture:** Relationships of deviant behaviour and socialization disorders I.

**Seminar:** Interactive processing of the lecture's material.

**12th week:**

**Lecture:** Relationships of deviant behaviour and socialization disorders II.

**Seminar:** Interactive processing of the lecture's material.

**13th week:**

**Lecture:** Detection, symptoms, background and intervention of childhood behaviours I.

**Seminar:** Interactive processing of the lecture's material.

**14th week:**  
**Lecture:** Detection, symptoms, background and intervention of childhood behaviours II.  
**Seminar:** Interactive processing of the lecture's material.

### Requirements

Prerequisite: Health Psychology and Mental Hygiene II.

Attendance of lectures is highly recommended. The current knowledge of students will be evaluated on an oral exam based upon the lecture topics.

## Department of Social Sciences

Subject: **FIELDS AND METHODS OF HEALTH SOCIAL WORK II.**

Year, Semester: 2nd year/1st semester

Number of teaching hours:

Seminar: **28**

**1st week:**

**Seminar:** Intercultural understanding of social needs and giving a helping hand methods.

**2nd week:**

**Seminar:** Need assessment, and identification of problems.

**3rd week:**

**Seminar:** How to make a community integration and discharge plan.

**4th week:**

**Seminar:** The role of the health social worker in the hospitals.

**5th week:**

**Seminar:** The role of the health social worker in the provision of field health programs.

**6th week:**

**Seminar:** The tasks of the health social worker in the public health programs provided to special groups.

**7th week:**

**Seminar:** The role of the health social worker in the medical corps, TEAM working.

**8th week:**

**Seminar:** Health promotion and social services for high risk groups (minorities).

**9th week:**

**Seminar:** Health promotion and social services for high risk groups (homelessness).

**10th week:**

**Seminar:** Health promotion and social services for high risk groups (people living in slums or low armed areas with services).

**11th week:**

**Seminar:** Health promotion and social services for high risk groups (human trafficking, sex slaves, sex – workers).

**12th week:**

**Seminar:** Health promotion and social services for high risk groups (migrants).

**13th week:**

**Seminar:** Analysis of the student's project concerning a plan for a specific high risk group that provides a targeting method, better access and better service I.

**14th week:**

**Seminar:** Analysis of the student's project concerning a plan for a specific high risk group that provides a targeting method, better access

and better service II.

**Requirements**

Prerequisite: Fields and methods of the health social work I.

Students, as a team, must develop a written plan for a project .

The topic was chosen during the course (see 13-th and 14-th lectures).

Analysis of the student's project concerning a plan for a specific high risk group that provides a targeting method, better access and better service.

Four students will work together as a professional team.

The offered structure of the essay:

- Theoretic background of the problem.
- Characteristics of the problem in the international and national level
- Role of the organizations
- Description and analysis of the frequently used methods in social work practice
- How to make better access, better service and care? Ideas and plans for development of services and professional activities

The analysis will be based on the group experiences, and the existing knowledge and literature.

Formal criteria:

The essay must be typed with 12 pt Times New Roman, 1.5 pitch, and a minimum of 20 pages.

Appropriate English literatures must be used too.

**Department of Social Work**

Subject: **HEALTH SOCIAL WORK FIELD PRACTICE III.**

Year, Semester: 2nd year/1st semester

Number of teaching hours:

Practical: **42**

**Content:** Students will prepare a comparative study describing the medical and the social system with their services and institutes including the clinical/client pathway of the two systems. The focus will be on health social work methods to implement professional programs and services, especially in community care, rehabilitation, improvement of quality of life and equal opportunities. The students' practice will be supervised and directly assisted by field instructors. Seminars will be held in small

groups, with the objective of processing the clients' problems, methods of intervention, operation of services and learning the competencies of medical social work.

Course type: field exercise, seminars and case discussions.

Study methods: writing a field journal, oral presentations, preparation of papers, drafting presentation of the field trip experience and case discussions.

|

**Requirements**

Prerequisite: Health Social Work Field Practice II.

Requirement: Students will write a report about their experience in the field and about the various methods of social work utilized in the field institutions. Students in small groups will prepare the clinical/client pathway of two clients where they will explore and analyze the necessary services for the clients in the health and social systems and determine the pathway in the clients' life.

Subject: **HEALTH SOCIAL WORK FIELD PRACTICE IV.**

Year, Semester: 2nd year/2nd semester

Number of teaching hours:

Practical: **210**

<p><b>Content:</b> The course prepares students for the application of problem-solving methods and skills, performing preventive measures and social treatment, and the realization of project work, to include surveys, and their analysis. Students participate in intensive fieldwork, directly supported by a field teacher. The intensive field practice is intended to integrate all the previously acquired knowledge of health social work, and the professional skills and competencies. Students deal directly with clients needing health social work, and apply social work methods to</p>	<p>improve the quality of life of clients in order to solve their problems, the professional experience of the intensive field practice is processed in case discussion groups.</p> <p>Course type: field practice, seminars and case discussions.</p> <p>Study methods: writing a field journal, oral presentations, preparation of papers, drafting presentation of the field trip experience and case discussions.</p>
--	---

**Requirements**

Prerequisite: Health Social Work Field Practice III.

Requirement: Students keep a report of their experiences in the field institution. Students will prepare a case study of one client/case and they will select any problem-solving method of social work to apply it in the case. Students will work as social worker assistants under supervision. The size of case study is 20.000 characters with spaces.

## CHAPTER 12 REQUIRED ELECTIVE COURSES

### Department of Psychology

Subject: **SOCIAL WORK WITH PSYCHIATRIC PATIENTS I.**

Year, Semester: 2nd year/1st semester

Number of teaching hours:

Lecture: **28**

**1st week:**

**Lecture:** Types and definitions of psychiatric illnesses, process of formation of psychiatric illnesses.

**2nd week:**

**Lecture:** Biological aspects contributing to the development of psychiatric illnesses.

**3rd week:**

**Lecture:** Psychological aspects contributing to the development of psychiatric illnesses.

**4th week:**

**Lecture:** Social aspects contributing to the development of psychiatric illnesses.

**5th week:**

**Lecture:** Effects of psychiatric illnesses to patient's environments I.

**6th week:**

**Lecture:** Effects of psychiatric illnesses to patient's environments II.

**7th week:**

**Lecture:** Health care for psychiatric patients I.

**8th week:**

**Lecture:** Health care for psychiatric patients II.

**9th week:**

**Lecture:** Social care for psychiatric patients I.

**10th week:**

**Lecture:** Social care for psychiatric patients II.

**11th week:**

**Lecture:** Differences in how care is organized for patients/clients in the community and the institution I.

**12th week:**

**Lecture:** Differences in how care is organized for patients/clients in the community and the institution II.

**13th week:**

**Lecture:** Questions of the deinstitutionalisation I.

**14th week:**

**Lecture:** Questions of the deinstitutionalisation II.

### Requirements

Prerequisite: Basics of Health Sciences I.

Midterm assessment:

Short lectures given by the students, discussions, midterm exam.

Requirements that must be met to complete the course in the semester:

Regular attendance of lectures.

Subject: **SOCIAL WORK WITH PSYCHIATRIC PATIENTS II.**

Year, Semester: 2nd year/2nd semester

Number of teaching hours:

Lecture: **14**

Seminar: **28**

**1st week:**

**Lecture:** Community integration of psychiatric clients I.

**Seminar:** Interactive processing of the lecture's material.

**2nd week:**

**Lecture:** Community integration of psychiatric clients II.

**Seminar:** Interactive processing of the lecture's material.

**3rd week:**

**Lecture:** Questions of inclusion I.

**Seminar:** Interactive processing of the lecture's material.

**4th week:**

**Lecture:** Questions of inclusion II.

**Seminar:** Interactive processing of the lecture's material.

**5th week:**

**Lecture:** Fields of rehabilitation for psychiatric clients I.

**Seminar:** Interactive processing of the lecture's material.

**6th week:**

**Lecture:** Fields of rehabilitation for psychiatric clients II.

**Seminar:** Interactive processing of the lecture's material.

**7th week:**

**Lecture:** Clinical pathway of the psychiatric clients I.

**Seminar:** Interactive processing of the lecture's material.

**8th week:**

**Lecture:** Clinical pathway of the psychiatric clients II.

**Seminar:** Interactive processing of the lecture's material.

**9th week:**

**Lecture:** Methods of social work to the psychiatric therapy for clients: team work, case management, group work, community work I.

**Seminar:** Interactive processing of the lecture's material.

**10th week:**

**Lecture:** Methods of social work to the psychiatric therapy for clients: team work, case management, group work, community work II.

**Seminar:** Interactive processing of the lecture's material.

**11th week:**

**Lecture:** Services for patients/clients I.

**Seminar:** Interactive processing of the lecture's material.

**12th week:**

**Lecture:** Services for patients/clients II.

**Seminar:** Interactive processing of the lecture's material.

**13th week:**

**Lecture:** Case study of psychiatric clients I.

**Seminar:** Interactive processing of the lecture's material.

**14th week:**

**Lecture:** Case study of psychiatric clients II.

**Seminar:** Interactive processing of the lecture's material.

**Requirements**

**Prerequisite:** Social Work with Psychiatric Patients I.

**Requirements:** Students have to write and present a case study of a psychiatric patient/client.

**Requirements that must be met to complete the course in the semester:** Regular attendance of lectures.

Department of Social Sciences

Subject: **EUROPEAN ECONOMY AND SOCIAL POLICY**

Year, Semester: 1st year/2nd semester

Number of teaching hours:

Lecture: **14**

**1st week:**

**Lecture:** Mechanisms of the international and European economy.

**2nd week:**

**Lecture:** Economically policies I.

**3rd week:**

**Lecture:** Economically policies II

**4th week:**

**Lecture:** Globalisation and its impact to the European societies.

**5th week:**

**Lecture:** Globalisation and its impact to the European Welfare State and welfare models.

**6th week:**

**Lecture:** The financial crisis and its impact to the social inequalities, like the poverty, poverty gaps.

**7th week:**

**Lecture:** The financial crisis and its impact to the social inequalities, like marginalized social groups.

**8th week:**

**Lecture:** International social policy.

**9th week:**

**Lecture:** The mixed economy in Europe, including the social economy.

**Lecture:** New models and institutions of the social economy, like NPOs.

**11th week:**

**Lecture:** Reactions of the social work organizations, movements.

**12th week:**

**Lecture:** The future of social policy and social work.

**13th week:**

**Lecture:** Good practices, and its analyse I.

**14th week:**

**Lecture:** Good practices, and its analyse II.

### Requirements

Prerequisite: -

Subject: **GERONTOLOGY AND CLINICAL GERIATRICS I.**

Year, Semester: 1st year/2nd semester

Number of teaching hours:

Lecture: **14**

**1st week:**

**Lecture:** Basics of gerontology I.

**2nd week:**

**Lecture:** Basics of gerontology II.

**3rd week:**

**Lecture:** Gerontology in mirror of statistics:  
Process of aging of individuals I.

**4th week:**

**Lecture:** Gerontology in mirror of statistics:  
Process of aging of individuals II.

**5th week:**

**Lecture:** Gerontology in mirror of statistics:  
Tendencies of mortality I.

**6th week:**

**Lecture:** Gerontology in mirror of statistics:  
Tendencies of mortality II.

**7th week:**

**Lecture:** Systemic approach of gerontology I.

**8th week:**

**Lecture:** Systemic approach of gerontology II.

**9th week:**

**Lecture:** Biogerontology: The basics I.

**10th week:**

**Lecture:** Biogerontology: The basics II.

**11th week:**

**Lecture:** Biogerontology: Aging theories I.

**12th week:**

**Lecture:** Biogerontology: Aging theories II.

**13th week:**

**Lecture:** Biogerontology: Experimental  
gerontology I.

**14th week:**

**Lecture:** Biogerontology: Experimental  
gerontology II.

### Requirements

Prerequisite: -

**Midterm assessment:**

Short lectures given by the students, discussions, midterm exam.

**Requirements that must be met to complete the course in the semester:**

Regular attendance of lectures.

**Conditions of successful exams:**

Appropriate quality of the short lectures given by the students. Successful passing of midterm and

final exam.

**Conditions of exams:**

According to the Exam Regulations of the Faculty.

**Method of exams:**

Answering of questions in writing, tests and essays.

Subject: **GERONTOLOGY AND CLINICAL GERIATRICS II.**

Year, Semester: 2nd year/1st semester

Number of teaching hours:

Lecture: **28**

**1st week:**

**Lecture:** Biogerontology: Aging and diseases I.

**2nd week:**

**Lecture:** Biogerontology: Aging and diseases II.

**3rd week:**

**Lecture:** Geriatrics: Physiological and pathological alterations due to aging I

**4th week:**

**Lecture:** Geriatrics: Physiological and pathological alterations due to aging II

**5th week:**

**Lecture:** Analysis of a film connected to the problem of aging

**6th week:**

**Lecture:** Gerontopsychology I.

**7th week:**

**Lecture:** Gerontopsychology II.

**8th week:**

**Lecture:** Social gerontology: Sociological

aspects of aging of society I.

**9th week:**

**Lecture:** Social gerontology: Sociological aspects of aging of society II.

**10th week:**

**Lecture:** Prevention and aging I.

**11th week:**

**Lecture:** Prevention and aging II.

**12th week:**

**Lecture:** Possibilities of the slowing down of the aging process I.

**13th week:**

**Lecture:** Possibilities of the slowing down of the aging process II.

**14th week:**

**Lecture:** Completion courses.

**Requirements**

**Midterm assesment:**

Short lectures given by the students, discussions, midterm exam.

**Requirements that must be met to complete the course in the semester:**

Regular attendance of lectures.

**Conditions of successful exams:**

Appropriate quality of the short lectures given by the students. Successful passing of midterm and final exam.

**Conditions of exams:**

According to the Exam Regulations of the Faculty.

**Method of exams:**

Answering of questions in writing, tests and essays.

Subject: **COMMUNITY CARE AND TEAM WORK I.**

Year, Semester: 1st year/2nd semester

Number of teaching hours:

Lecture: **28**

**1st week:**

**Lecture:** Institutional system, institutionalism and its effects.

**2nd week:**

**Lecture:** Total institutions – Goffman E.

**3rd week:**

**Lecture:** How to create more democratic institutions? Community psychiatry, sociotherapy.

**4th week:**

**Lecture:** Clients' participation, clients' role.

**5th week:**

**Lecture:** De-institutionalisation I.

**6th week:**

**Lecture:** De-institutionalisation II.

**7th week:**

**Lecture:** Community as a place and the care giver.

**8th week:**

**Lecture:** Community development.

**9th week:**

**Lecture:** Inclusive communities, neighbourhood programmes.

**10th week:**

**Lecture:** Mutual aid communities.

**11th week:**

**Lecture:** Community care as a service.

**12th week:**

**Lecture:** Good practices, and its analyse.

**13th week:**

**Lecture:** Comparative study on social problems.

**14th week:**

**Lecture:** Comparative study on social problems.

**Requirements**

Prerequisite: -

Subject: **COMMUNITY CARE AND TEAM WORK II.**

Year, Semester: 2nd year/1st semester

Number of teaching hours:

Seminar: **28**

**1st week:**

**Seminar:** About the welfare organisations – in general.

**2nd week:**

**Seminar:** Professional groups in the institutions.

**3rd week:**

**Seminar:** Interprofessional surrounding and effective work.

**4th week:**

**Seminar:** Methodology of the interprofessional team-work.

**5th week:**

**Seminar:** Skill development: personal experiences of team work – group analyse.

**6th week:**

**Seminar:** Skill development – interprofessional team role play.

**7th week:**

**Seminar:** Skill development – interprofessional team role play.

**8th week:**

**Seminar:** Skill development – interprofessional team role play.

**9th week:**

**Seminar:** Skill development – interprofessional team role play.

**10th week:**

**Seminar:** Skill development – interprofessional team role play.

**11th week:**

**Seminar:** Skill development – interprofessional team role play.

**12th week:**

**Seminar:** Skill development – interprofessional team role play.

**13th week:**

**Seminar:** Skill development – interprofessional team role play.

**14th week:**

**Seminar:** Personal skill test (Belbin), discussion.

### Requirements

Prerequisite: Community Care and Team Work I.

Students must perform a written analysis of team work. They need to observe one existing team and analyse it by the following criteria:

- team formation,
- communication, and reflectivity
- dynamism,
- cooperation,
- culture of the team and

- effectiveness.

The analysis will be based on their self experiences.

Formal criteria:

The essay must be typed with 12 pt Times New Roman, 1.5 pitch, and a minimum of 10 pages.

Appropriate English literature must be used too.

Subject: **EQUALITY AND SOCIAL INTEGRATION**

Year, Semester: 1st year/2nd semester

Number of teaching hours:

Lecture: **28**

Seminar: **28**

**1st week:**

**Lecture:** Social inequalities: definition, interpretation of inequalities, features of regional inequalities.

**Seminar:** Interactive processing of the lecture's material.

**2nd week:**

**Lecture:** Social exclusion: definitions, data and facts in the EU and in the world.

**Seminar:** Interactive processing of the lecture's material.

**3rd week:**

**Lecture:** Social inclusion: definitions, data and facts in the EU and in the world.

**Seminar:** Interactive processing of the lecture's material.

**4th week:**

**Lecture:** Poverty: definition, interpretation of poverty. Deprivation, segregation and deep poverty.

**Seminar:** Interactive processing of the lecture's material.

**5th week:**

**Lecture:** Poverty: data and facts in the EU and in the world.

**Seminar:** Interactive processing of the lecture's material.

**6th week:**

**Lecture:** Child poverty: definition, interpretation of poverty.

**Seminar:** Interactive processing of the lecture's material.

**7th week:**

**Lecture:** Child poverty: data and facts in the EU and in the world.

**Seminar:** Interactive processing of the lecture's material.

**8th week:**

**Lecture:** Anti-poverty action plans.

**Seminar:** Interactive processing of the lecture's material.

**9th week:**

**Lecture:** Social inequalities in environment and health: definitions, data and facts in the EU and in the world.

**Seminar:** Interactive processing of the lecture's material.

**10th week:**

**Lecture:** Gender inequalities: definitions, data and facts in the EU and in the world.

**Seminar:** Interactive processing of the lecture's material.

**11th week:**

**Lecture:** Labour market and unemployment: definitions, data and facts in the EU and in the world.

**Seminar:** Interactive processing of the lecture's material.

**12th week:**

**Lecture:** Homelessness and eviction from housing, resources for the solution of unemployment.

**Seminar:** Interactive processing of the lecture's material.

**13th week:**

**Lecture:** Social integration of disabled people: access at work and school both physically and digitally.

**Seminar:** Interactive processing of the lecture's material.

**14th week:**

**Lecture:** Social integration of mental health illnesses: resources in solution of integration.

**Seminar:** Interactive processing of the lecture's material.

**15th week:**

**Lecture:** Evaluation of student's work.

**Seminar:** Interactive processing of the lecture's material.

**Requirements**

Prerequisite: Health Policy

Requirements: Preparation of an article about equality and social integration of a freely chosen target group and a country. Students have to use database, science publications and field experience in their topic to write their articles. The size of article is 25.000 characters with spaces.

Subject: **DISABILITY AND SOCIETY I.**

Year, Semester: 1st year/2nd semester

Number of teaching hours:

Lecture: **28**

**1st week:**

**Lecture:** The normalization principle .

**2nd week:**

**Lecture:** The normalization principle.

**3rd week:**

**Lecture:** Early detection and early intervention.

**4th week:**

**Lecture:** Principles of integration and inclusion. The Salamanca Statement.

**5th week:**

**Lecture:** Principles of integration and inclusion. The Salamanca Statement.

Seminar: **28**

**1st week:**

**Lecture:** National Drug Strategy. The four assumptions and aims of the National Strategy.  
**Seminar:** Interactive processing of the lecture's material.

**2nd week:**

**Lecture:** The local appearance of the National Strategy. The Committee for Drug Affairs, regional strategies (small-group learning method, analysis).  
**Seminar:** Interactive processing of the lecture's material.

**3rd week:**

**Lecture:** The local appearance of the National Strategy. The Committee for Drug Affairs, regional strategies (small-group learning method, analysis).

**Seminar:** Interactive processing of the lecture's material.

**4th week:**

**Lecture:** Drug abuse prevention programs (small-group learning method, analysis).

**Seminar:** Interactive processing of the lecture's material.

**5th week:**

**Lecture:** The possible means of social workers, the possibilities of interdisciplinary team work with mentally ill and addicted patients.

**Seminar:** Interactive processing of the lecture's material.

**6th week:**

**Lecture:** The possible means of social workers, the possibilities of interdisciplinary team work with mentally ill and addicted patients.

**Seminar:** Interactive processing of the lecture's material.

**7th week:**

**Lecture:** The role and possible tasks of a social worker, methods and tools during the work with mentally ill and addicted patients' relatives.

**Seminar:** Interactive processing of the lecture's material.

**8th week:**

**Lecture:** The role and possible tasks of a social worker, methods and means during the work with mentally ill and addicted patients' relatives.

**Seminar:** Interactive processing of the lecture's material.

**9th week:**

**Lecture:** Case study (social problems of mentally ill and addicted patients - interference possibilities of social work through the complex analysis of cases.)

**Seminar:** Interactive processing of the lecture's material.

**10th week:**

**Lecture:** Case study (social problems of mentally ill and addicted patients - interference possibilities of social work through the complex analysis of cases.)

**Seminar:** Interactive processing of the lecture's material.

**11th week:**

**Lecture:** The possibilities and practice of community integration (small-group learning method).

**Seminar:** Interactive processing of the lecture's material.

**12th week:**

**Lecture:** The possibilities and practice of community integration (small-group learning method).

**Seminar:** Interactive processing of the lecture's material.

**13th week:**

**Lecture:** Local needs-assessment. Social map, as one of the means of planning social services. (practice)

**Seminar:** Interactive processing of the lecture's material.

**14th week:**

**Lecture:** Local needs-assessment. Social map, as one of the means of planning social services. (practice)

**Seminar:** Interactive processing of the lecture's material.

### Requirements

Prerequisite: Social Work with Mentally Ill and Addicted Patients I.

Oral examination.

Subject: **SOCIAL WORK WITH PATIENTS WITH LONG-TERM OR CHRONIC DISEASES I.**

Year, Semester: 2nd year/1st semester

Number of teaching hours:

Lecture: **28**

**1st week:**

**Lecture:** Mental hygiene of those living with chronic illnesses.

**2nd week:**

**Lecture:** The social characteristics of living with illnesses.

**3rd week:**

**Lecture:** Pauperization, discrimination, social isolation.

**4th week:**

**Lecture:** Crisis situation, special characteristics of crisis intervention.

**5th week:**

**Lecture:** Social work with chronic non-infectious patients I. – Help of pathogen carrier patients.

**6th week:**

**Lecture:** Social work with chronic infectious patients II. – Help patients who suffer from TBC.

**7th week:**

**Lecture:** Social work with chronic infectious patients III. – Social support of STD patients (HIV; Syphilis).

**8th week:**

**Lecture:** Social work with cancer patients. Social programmes to cancer patients. Experiences of illnesses, life style, social support.

**9th week:**

**Lecture:** Social work with cancer patients. Social programmes to cancer patients. Experiences of illnesses, life style, social support.

**10th week:**

**Lecture:** Social work with cancer patients. Social programmes to cancer patients. Experiences of illnesses, life style, social support.

**11th week:**

**Lecture:** Social work with cancer patients. Social programmes to cancer patients. Experiences of illnesses, life style, social support.

**12th week:**

**Lecture:** Human and professional characteristics of palliative care. End of life care. Rules of HOSPICE. Tasks of social work in getting over bereavement.

**13th week:**

**Lecture:** Human and professional characteristics of palliative care. End of life care. Rules of HOSPICE. Tasks of social work in getting over bereavement.

**14th week:**

**Lecture:** Human and professional characteristics of palliative care. End of life care. Rules of HOSPICE. Tasks of social work in getting over bereavement.

**Requirements**

Prerequisite: Basics Of Health Sciences I., Clients and Methods of Social Work

Subject: **SOCIAL WORK WITH PATIENTS WITH LONG-TERM OR CHRONIC DISEASES II.**

Year, Semester: 2nd year/2nd semester

Number of teaching hours:

Lecture: **14**

Seminar: **28**

**1st week:**

**Lecture:** Social help of chronic nephropathic patients.

**Seminar:** Comparative analysis.

**2nd week:**

**Lecture:** Social help for people living with cardiovascular diseases.

**Seminar:** Comparative analysis.

**3rd week:**

**Lecture:** Social help for people living with cardiovascular diseases.

**Seminar:** Comparative analysis.

**4th week:**

**Lecture:** The roles of organizations providing mutual assistance that support people who are ill. Support work of protective organizations.

**Seminar:** International comparative analysis.

**5th week:**

**Lecture:** The roles of organizations providing mutual assistance that support people who are ill. Support work of protective organizations.

**Seminar:** International comparative analysis.

**6th week:**

**Lecture:** Examination of research programs that analyze the social status of chronic patients.

**Seminar:** Team analysis.

**7th week:**

**Lecture:** The analysis and examination of the professional programs.

**Seminar:** Project analysis.

**8th week:**

**Lecture:** Case study.

**Seminar:** Possibilities for intervention in the analysis of complex social work cases.

**9th week:**

**Lecture:** Case study.

**Seminar:** Possibilities for intervention in the analysis of complex social work cases.

**10th week:**

**Lecture:** Analysis of methodology referrals, integration and pilot programs for acute illnesses in Hungary and other countries.

**Seminar:** Project analysis.

**11th week:**

**Lecture:** Analysis of methodology referrals, integration and pilot programs for acute illnesses in Hungary and other countries.

**Seminar:** Project analysis.

**12th week:**

**Lecture:** Analysis of methodology referrals, integration and pilot programs for acute illnesses in Hungary and other countries.

**Seminar:** Project analysis.

**13th week:**

**Lecture:** Analysis of methodology referrals, integration and pilot programs for acute illnesses in Hungary and other countries.

**Seminar:** Project analysis.

**14th week:**

**Lecture:** Project work: presentation and evaluation.

**Seminar:** Giving presentations of a target group – social situation, deprivation, social support, complex methods of giving assistance.

**Requirements**

Prerequisite: Social Work with Patients with Long-term or Chronic Diseases I.

## CHAPTER 13

### LIST OF TEXTBOOKS

**1st year****Applied Research Methodology I.:**

William M.K. Trochim: Research Methods Knowledge Base.

URL:

<http://www.socialresearchmethods.net/kb/index.php>

John Verzani: A simpleR - Using R for Introductory Statistics.

URL: [http://cran.r-](http://cran.r-project.org/doc/contrib/Verzani-SimpleR.pdf)

[project.org/doc/contrib/Verzani-SimpleR.pdf](http://cran.r-project.org/doc/contrib/Verzani-SimpleR.pdf)

WHO Regional Office for the Western Pacific: Health research methodology. A Guide for Training in Research Methods.

URL:

[http://www.wpro.who.int/publications/docs/Health\\_research\\_edited.pdf](http://www.wpro.who.int/publications/docs/Health_research_edited.pdf)

**Health Psychology and Mental Hygiene I.:**

Jane Ogden : Health Psychology:A textbook. 5th edition. McGraw Hill, Open University Press, London, 2012.

David F. Marks – Michael P. Murray – Brian Evans – Emeé Vida Estacio: Health Psychology: Theory, Research, and Practice. 2011.

**Health Policy:**

James A. Morone, Daniel C. Ehlke : Health Politics and Policy. Fifth edition. Delmar Cengage Learning, 2012.

Barbara McPake, Lilani Kumaranayake, Charles E. M. Normand: Health Economics: An International Perspective. Psychology Press, 2002.

James W. Henderson: Health economy and

health policy.

Fifth edition. Cengage Learning, 2012.

WHO: Using impact assessment in environment and health: a framework. 2013.

Kulesher R, Forrestal E.: International models of health systems financing.

J. Hosp. Admin. 3 (4), 2014.

**Clients and Methods of Social Work:**

Herbert Goldenberg, Irene Goldenberg: Family Therapy.

7th edition. BrooksCole, 2008.

Mikesell, Richard H. (Ed); Lusteran, Don-David (Ed); McDaniel, Susan H. (Ed) :

Integrating family therapy: Handbook of family psychology and systems theory.

Washington, DC, US, American Psychological Association, 1995.

Lectures and supplementary materials will be available on the departmental home page.
